in this video symposium the presenter will show and discuss a tough case of cataract surgery. The discussants seeing the case for the first time will pause the case in between at crucial steps and discuss what could have been done differently at that particular step and the final outcome will be shown by the presenter. This will bring out many key teaching points for the audience and different ways of managing a challenging case.

The Toughest Guy and Toughest Girl will be Awarded at the end of the Session
